2021-present
Bachelor Of Tech. with Computer Science
Kg reddy college of engineering & Technology

2019-2021
Science
ARTM Public School(H.S)

LANGUAGE

- English
- Hindi
- Bengali

ABOUT:

I did my higher secondary education at the West Bengal Council of Higher Secondary Education (WBCHSE) as a science student, and after that, I am currently pursuing my bachelor's degree in technology with computer science as my major at the KG Reddy College of Engineering and Technology, Hyderabad. I have been developing Python programmes for a year now. I have worked on many projects. Now I'm developing front-end websites. I am currently working on a personal project to improve my skills even further.

MY PROJECTS:

Artificial Intelligence Virtual Assistant :

I created a personal AI virtual assistant which uses voice as a command to do my daily tasks like opening websites, playing music, and much more.

Artificial Intelligence Virtual Mouse:

This was an interesting project in which I made a mouse cursor that moved using hand gestures by taking live video from the webcam. I used Python and AI to build it.

E-Commerce Website

I Build an E-commerce website to improve my skill.

Live-Clock

Let me introduce the live clock. My main goal in this project was to build a website where you can view the current time in hours, minutes, and seconds.

MY SKILLS & EXPERTISE:

HTML5	Python
CSS3	C
Java Script	Web-Design
Slide Presentation
